

What is Creditable Coverage?

Medicare beneficiaries have the opportunity to receive subsidized prescription drug coverage through the Medicare Part D program. Beneficiaries who choose not to sign up at the first opportunity may have to pay more if they wait to enter the program later.

Beneficiaries who have other sources of drug coverage - through a current or former employer or union, for example - may stay in that plan and choose not to enroll in the Medicare drug plan. If their other coverage is at least as good as the new Medicare drug benefit (and therefore considered "creditable coverage"), then the beneficiary can continue to get the high quality care they have now as well as avoid higher payments if they sign up later for the Medicare drug benefit.

To determine if your prescription drug benefits are creditable, you should be able to answer the following questions:

- What is your Rx copay structure?
- What is your mail-order benefit?
- Are your prescription drug benefits subject to a deductible?
- If so, what is the annual single/family deductible?

Prescription drug benefits are Creditable if they have one of the copay structures listed below AND a deductible less than or equal to the amount shown below. If "Not Creditable" is listed, then the copay structure is not considered Creditable coverage. If "\$0/\$0" is listed, then the copay structure is only considered Creditable with no deductible.

EXAMPLE #1:

Rx Copay Structure:	\$7/\$30/50%	Rx Subject to Deductible?	Yes, Rx only
Mail-Order Benefit:	2.5 copays per 90 day supply	Annual Deductible:	\$3,000/\$6,000

Per the grid on the next page, \$7/\$30/50% is creditable with 2.5 copays per 90 day supply when the single deductible is less than or equal to \$1,250 and the family deductible is less than or equal to \$2,500. Therefore, my prescription drug plan is not considered creditable.

EXAMPLE #2:

Rx Copay Structure:	\$7/\$30/50%	Rx Subject to Deductible?	Yes, Health+Rx
Mail-Order Benefit:	2.5 copays per 90 day supply	Annual Deductible:	\$1,500/\$3,000

Per the grid on the next page, \$7/\$30/50% is creditable with 2.5 copays per 90 day supply when the single deductible is less than or equal to \$5,000 and the family deductible is less than or equal to \$10,000. Therefore, my prescription drug plan is considered creditable.
