## Oxygen Services Reimbursement Adjustment

Why you're receiving this stat	We are adjusting our monthly reimbursement rate for all oxygen services.
What you need to know	<p>In March 2017, we announced that the monthly reimbursement rate for all oxygen services, code E1390, would be \$100.14. This decision was made to better align with the standard set by the Centers for Medicare &amp; Medicaid Services (CMS).</p> <p>CMS accepts multiple billing codes for oxygen services; this was not taken into account when our rate was established in March.</p> <p>As a result, we have adjusted our monthly reimbursement for all oxygen services. The new rate of \$120.00 will take effect July 1, 2017.</p> <p>As a reminder, the E1390 is an all-inclusive code and used for all oxygen patients as long as they receive services.</p> <p>There will be no changes to our billing methodology.</p>
What you need to do	<p>Please share this information with your billing team.</p> <p>If you have any questions regarding this stat, please contact your Provider Practice Consultant at (518) 220-5601.</p>
