## Chiropractic Medicare Advantage (AT) Modifier Requirement

|                                |   |
|--------------------------------|---|
| Why you're receiving this stat | As a reminder, the Active Treatment (AT) modifier is required for all Medicare Advantage members.   |
| What you need to know          | <p>The AT modifier indicates the difference between active treatment and maintenance treatment.</p> <p>Chiropractic claims with HCPCS codes 98940, 98941, and 98942 should include the AT modifier if active/corrective treatment is being performed.</p> <p>The AT modifier should <u>not</u> be used if maintenance therapy is being performed.</p> |
| What you need to do            | Apply the AT modifier to HCPCS codes 98940, 98941, or 98942 when your clinical documentation reflects that the care you provided to a Medicare Advantage member consists of active/corrective treatment.  |

If you have any questions regarding this stat, please contact Provider Service at 1-800-444-4552 or (518) 220-5620.
