Reimbursement Changes: Medical Injectables

Why we're writing you today

Effective December 22, 2017, we will be updating our corporate medical injectable fee schedule. The changes will impact all participating physicians, skilled nursing facilities, and home-infusion pharmacies.

What you need to know

The new reimbursement changes are effective for claims with a date of service on or after December 22, 2017. Below is a list of the drugs and their new fees. The new fee schedule information will be available on our secure provider website, bsneny.com/provider as of December 22, 2017.

Our approach to reimbursing injectables continues to be based on average sales price (ASP). This approach allows for updates to the fee schedules that better reflect acquisition cost changes throughout the year. The rate will change quarterly as ASP rates fluctuate.
